

GroupASSIST

Designed to make group travel management simple & affordable.

GroupASSIST retrieves **online and offline** group reservation data on air, hotel and rail and makes it accessible to you at any time, any place, and on any device through a secure, web-based environment. It provides **arrival and departure manifests updated in real time** so you never have to manually key in PNR details into tedious spreadsheets ever again!

PNR data is available in **26 standardized PDF or CSV-formatted reports**. The reports are designed to make it easy for you to quickly and effectively identify new reservations, changes, cancellations and ticketed travelers. Arrival and departure manifests can be sorted according to your needs and preferences. Custom reports are available upon request.

- Monitor and manage arrivals & departures on air, hotel & rail
- Capture all online & offline group reservation data
- Integrates with **ALL GDSs**
- Quickly identify latest PNR status
- Easily coordinate ground transportation
- Deftly manage room blocks
- No need to rekey group reservation details
- No more toggling between systems to manage group travel
- Affordable, transaction-based pay model with low monthly minimum
